

Do not weaken the WI no call law. Our law works. Because our law works it does not fit the agenda of the Consumers Banking Association. To make money the CBA wants to take away my right to privacy. I want to be able to live my life in peace. I want a strong wall between telemarketers and myself. Protect me from CBA and others like them. I know first hand the benefits of the WI No Call List. Before the No Call List my life was hell with unwanted phone calls. I felt pestered and harassed by unwanted telemarketing calls. I was unprotected from the intrusion into my home. There are laws protecting me from physical contact by solicitors. I can put up a sign by my front door. I can call the police. There was seemingly nothing I could do to stop the telemarketers. Wisconsin put into effect a strong law which did exactly what I wanted it to do. Wisconsin government came to my aid. The Federal Government needed to do the same. Now we are faced with the possibility that the federal government will bend to the will of business, ignore the wishes of the citizens and take away the rights of the individual. Keep our protection against telemarketing strong and in place.

Sincerely,
Marcia E. Wollschlager
